Volume 202 - Conformance Test Report - IAIN01

Info Conf.

		Test Items Required									Complete response as ApplReqID=XXX. Rows can be repeated where multiple responses required						
INFO	Test Case ID	Information Conformance (Market Data)	Markets	Mandatory	Conformance Exemption Agreed with JSE	Self / CTA Test	Requirements	Client Interface User ID (CompID)	Client IP Address	Test Time	Client Response to Required Field1	Client Response to Required Field2	Client Response to Required Field3	Client Comment	JSE Comment	Test Result Pass / Fail	Other
I1		Market Data – Level 1 FIX/FAST Replay Service		Y	Y												
I1.1	I1-001	Logon to the Replay Channel of each Gateway that you will subscribe to and send an Application Message Request to request the retransmission of a small range of messages already published on the real time (multicast channel).	Equity Market	Y	Y	Self	1.1.3 ApplReqID										
I2		Market Data – Indices FIX/FAST Replay Service		Y	Y												
I2.1	I2-001	Logon to the Replay Channel of each Gateway that you will subscribe to and send an Application Message Request to request the retransmission of a small range of messages already published on the real time (multicast channel).	All	Y	Y	Self	2.1.3 ApplReqID										
I3		Market Data – Regulatory News FIX/FAST Replay Service															
I3.1	I3-001	Logon to the Replay Channel of each Gateway that you will subscribe to and send an Application Message Request to request the retransmission of a small range of messages already published on the real time (multicast channel).	All	Y	Y	Self	3.1.3 ApplReqID										
I4		Market Data – Level 1 FIX/FAST Recovery Service		Y	Y												
I4.1	I4-001	Logon to the Recovery Channel and send a Security Definition Request Message to request the details of all active instruments and all active instruments by segment.	Equity Market	Y	Y	Self	4.1.3 SecurityReqID 4.1.5 SecurityReqID										
I4.2	I4-002	Stay logged in and send a Market Data Request message to request a snapshot of the current order book or statistics for one or more instruments in the market data group.	Equity Market	Y	Y	Self	4.2.2 MDReqID 4.2.4 MDReqID										
I4.3	I4-003	Stay logged in and send a Market Data Request message to request a snapshot of the current order book or statistics by segment.	Equity Market	Y	Y	Self	4.3.2 MDReqID 4.3.4 MDReqID										
I4.4	I4-004	Stay logged in and send a Market Data Request message to request missed trades for one or more instruments in the market data group. Clients may also request missed trades for the instruments in the market data group that are assigned to one or more segme	Equity Market	Y	Y	Self	4.4.2 MDReqID (262), SecurityID(48), ProductComplex (1227) 4.4.4 MDReqID										
I5		Market Data – Full Depth MITCH Replay Service		Y	N												
I5.1	I5-001	Logon and send Replay Request to request retransmission of a limited number (small-scale) of messages already published on the Real-Time channel.	All	Y	N	Self	5.1.3 Market Data Group, First Message, Count, Splits	IAIM01	10.10.141.170	SAST 2026-09-09 13:38:30	MarketDataGroup = '5'	FirstMessage = 262861	Count = 3	MITCH replay successful			
I6		Market Data – Full Depth MITCH Recovery Service		Y	N												
I6.1	I6-001	Logon and send Snapshot Request to recover from a large-scale data loss (i.e. later joiner or major outage)	All	Y	N	Self	6.1.5 Sequence Number, Segment, Instrument ID 6.1.7 Sequence Number, Segment, Instrument ID 6.1.9 Sequence Number, Segment, Instrument ID	IAIM01	10.10.141.170	SAST 2026-09-09 13:44:30	SequenceNumber = 267130	Segment = ""	InstrumentID = 1732	Snapshot Recovery Successful, Requested Orderbook for InstumentID=1732			
I7		Market Data – Instrument Suspension		Y	N												
I7.1	I7-001	CTA to suspend an Instrument. Client confirms receipt of the suspension and confirms the instrument closing price.	All	Y	N	CTA	7.1. Instrument ID, Instrument Closing Price	IAIN01	10.10.141.170	SAST 2026-09-10 11:14:25	InstrumentID = 201	InstrumentClosingPrice = 12437					
I8		Market Data – Closing Price		Y	N												
I8.1	I8-001	CTA to republish the Closing Price of an Instrument. Client to confirm updated closing price.	All	Y	N	CTA	8.1. Instrument ID, Instrument Closing Price	IAIN01	10.10.141.170	SAST 2026-09-10 11:14:25	InstrumentID = 201	InstrumentClosingPrice = 12437					
I9		Market Data - Full Depth MITCH and/or Level 1 Replay Service -Extended Stats Message		Y	N												
I9.1	I9-001	Client requests a replay of a message where any of the below have changed: • High Price (On Book/Off Book) • Low Price (On Book/Off Book) • Volume (On Book/Off Book) • Number of Trades (On Book/Off Book) • VWAP(On Book/Off Book)	All	Y	N	Self	9.1. Instrument ID,Sequence Number,Order Book	IAIM01	10.10.141.170	SAST 2026-09-09 13:38:30	InstrumentID = 209	SequenceNumber = 262861	HighPrice = 12364.000000000 , LowPrice = 12358.00000000 , VWAP = 12361.07800000 , Volume = 187183 , NumberOfTrades = 489	Replay successful			
I10		Market Data - Full Depth MITCH and/or Level 1 Replay Service - Cross Order		Y	Y												
I10.1	I10-001	Client requests a replay of a Trade Message resulting from a successful Cross order	Equity Market	Y	Y	Self	10.1. Sequence Number										
I11		Market Data - Full Depth MITCH - Pegged Order		Y	Y												
I11.1	I11-001	Client requests a re-play of a Trade Message resulting from a successful Pegged order	Equity Market	Y	Y	Self	11.1. Sequence Number										
I12		Market Data - Full Depth MITCH and/or Level 1 Replay Service - Volume Auction trade		Y	Y												
I12.1	I12-001	Client requests a replay of a Trade Message resulting from a successful EOD Volume Auction call trade	Equity Market	Y	Y	Self	12.1. Sequence Number, Venue of Execution										

I13		Market Data - Full Depth MITCH and/or Level 1 Replay Service – EOD Volume Auction call trade		Y	Y													
I13.1	I13-001	Client requests a replay of a Trade Message resulting from a successful EOD Volume Auction call trade	Equity Market	Y	Y	Self	13.1 Sequence Number, Venue of Execution

		Test Items Required						Complete response as ApplReqID=XXX. Rows can be repeated where multiple responses required								
TRD	Test Case ID	Trading Conformance	Market	Mandatory	Conformance Exemption Agreed with JSE	Self / CTA Test	Requirements	Client Interface User ID (CompID)	Test Time	Client Response to Required Field1	Client Response to Required Field2	Client Response to Required Field3	Client Comment	JSE Comment	Test Result Pass / Fail	Other
T1		Trading - Logon		Y	N											
T1.1	T1-001	Establish a connection, Logon and change your password.	All	Y	Y	Self	1.1.3 Interface User ID (CompID)									
T1.2	T1-002	Establish a connection, Logon and change your password.	All	N	N	Self	1.2.3 Interface User ID (CompID)	IAIN01	SAST 2026-09-09 13:13:52	CompID = "IAIN01			Password changed and Logon successful			
T1.3	T1-003	Establish a connection, Logon and change your password - Protocol version	All	N	N	Self	1.3.3 Interface User ID (CompID), Protocol Version									
T2		Trading – Auction Order Management		Y	N											
T2.1	T2-001	Validate Market Orders during an Auction period.	All	Y	Y	Self	2.1.3 Order ID, Client Order ID, Execution ID									
T2.2	T2-002	Validate Limit Orders during an Auction period.	All	Y	Y	Self	2.1.3 Order ID, Client Order ID, Execution ID									
T3		Trading – Continuous Trading Order Management		Y	N											
T3.1	T3-001	Validate Aggressive Market Orders during the Continuous Trading period. This is an un-priced order	All	Y	Y	Self	3.1.2 Order ID, Client Order ID, Execution ID									
T3.2	T3-002	Validate Aggressive Limit Orders during the Continuous Trading period.	All	Y	N	Self	3.2.2 Order ID, Client Order ID, Execution ID	IAIN01	SAST 2026-09-17 09:12:24	OrderID = "O0SnTxKEgsZ3"	ClOrdID = "F26091700000000LFLXMO"	ExecID = "E0SnTsUC7UY9"	Successfule placed a aggressive order on instrumentId = 201.			
T3.3	T3-003	Validate Passive Limit Orders during the Continuous Trading period.	All	Y	N	Self	3.3.3 Order ID, Client Order ID, Execution ID	IAIN01	SAST 2026-09-17 09:14:07	OrderID = "O0SnTxKEgsdM"	ClOrdID = "F26091700000000LFLYNN"	ExecID = "E0SnTsUC7Upz"	Successfuly place a Passive order on instrumentId = 201.			
T3.4	T3-004	Validate Stop Orders during the Continuous Trading period.	All	Y	Y	Self	3.4.3 Order ID, Client Order ID, Execution ID									
T3.5	T3-005	Validate Stop Limit Orders during the Continuous Trading period.	All	Y	Y	Self	3.5.3 Order ID, Client Order ID, Execution ID									
T3.6	T3-006	Validate Order modification during the Continuous Trading period.	All	Y	N	Self	3.6.3 Order ID, Client Order ID, Execution ID	IAIN01	SAST 2026-09-09 13:29:16	OrderID = "O0ShgR8tf97s"	ClOrdID = "D26090900000000LFLXXI"	ExecID = "E0ShgMIr6KRQ"	Successfuly modified a order.			
T3.7	T3-007	Validate Order cancellation during the Continuous Trading period.	All	Y	N	Self	3.7.3 Order ID, Client Order ID, Execution ID	IAIN01	SAST 2026-09-09 13:32:38	OrderID = "O0ShgR8tf97s"	ClOrdID = "D26090900000000LFLYWJ"	ExecID = "E0ShgMIr6L2Q"	Successfuly cancelled a order.			
T3.8	T3-008	Validate Order Mass Cancel during the Continuous Trading period.	All	Y	N	Self	3.8.3 Order ID, Client Order ID, Execution ID	IAIN01	SAST 2026-09-09 13:35:39	OrderID = "O0ShgR8tf9jc"	ClOrdID = "D26090900000000LFM0QD"	ExecID = "E0ShgMIr6LZY"	Successfuly Mass cancelled live orders.			
T3.09	T3-009	Validate Cancel on disconnect.	All	Y	N	Self	3.9.4 Order ID, Client Order ID, Execution ID	IAIN01	SAST 2026-09-09 15:07:01	OrderID = "O0ShgR8tfDgq"	ClOrdID = "D26090900000000LFM5NG"	ExecID = "E0ShgMIr6cmZ"	Orders cancellation verified after Cancel on disconnect.			
T3.10	T3-010	Validate Exclude Hidden Limit Orders during the Continuous Trading period.	Equity Market	Y	N	Self	3.10.2 Order ID, Client Order ID, Execution ID									
T3.11	T3-011	Validate Market to Limit Order during the Continuous Trading period.	Derivative Markets	Y	Y	Self	3.10.2 Order ID, Client Order ID, Execution ID									
T3.12	T3-012	Validate Market if Touched Order during the Continuous Trading period.	Derivative Markets	Y	Y	Self	3.10.2 Order ID, Client Order ID, Execution ID									
T3.13	T3-013	Validate Iceberg Order during the Continuous Trading period.	Equity Market	Y	Y	Self	3.13 Order ID, Client Order ID, Execution ID, Public Order ID, DisplayQty									
T3.13	T3-013	Validate Aggressive Limit Orders that are Prevented from Self-Matching - Native Trading Gateway	Equity Market	N	N	Self	3.13 Order ID, Client Order ID, Self Trade Prevention Key, ExecType									
T3.14	T3-014	Validate Aggressive Limit Orders that are Prevented from Self-Matching - FIX Trading Gateway	Equity Market	N	N	Self	3.14 Order ID, Client Order ID, NoTrdKey, ExecType									
T3.15	T3-015	Validate proper handling of order cancel/replace requests without the NoTradeKey field (FIX Trading Gateway)	Equity Market	N	N	Self	3.15 Order ID, Client Order ID, ExecType									

T3.16	T3-016	Validate proper handling of order cancel/replace requests without the Self Trade Prevention Key field (Native Trading Gateway)	Equity Market	N	N	Self	3.16 Order ID, Client Order ID, ExecType										
T4		Trading - Native Trading Recovery		Y	N												
T4.1	T4-001	Prove Native Trading recovery of missed messages.	All	Y	N	Self	4.1.4 Order IDs, Client Order Ids	IAIN01	SAST 2026-09-09 13:13:55	"O0ShgR8tey7G" , "O0ShgR8tey8N" , "O0ShgR8tf0tq" , "O0ShgR8tf8cQ"	"C26090900000000LFLTYK" , "C26090900000000LFLUZJ" , "C26090900000000LFLVAJ" , "C26090900000000LFLTYK"		Native trading recovery of missed messages successful			
T5		Post Trade – Single Sided Trade Reports		Y	Y												
T5.1	T5-001	Establish a connection, Logon and change your password.	All	Y	Y	Self	5.1.1 Interface User ID (CompID)										
T5.2	T5-002	Submit a single sided Trade Report for immediate publication.	All	Y	Y	Self	5.2.2 Trade Report ID, Trade ID										
T5.3	T5-003	Same day cancel of a single sided Off Book Trade Report.	All	Y	Y	Self	5.3.2 Trade Report ID, Trade ID										
T5.4	T5-004	Next day cancel of a single sided published Off Book Trade Report. (LC)	Equity Market	Y	Y	Self	5.4.2 Trade Report ID, Trade ID										
T5.5	T5-005	Next day cancel of a single sided non-published Off Book Trade Report. (NC)	Equity Market	Y	Y	Self	5.5.2 Trade Report ID, Trade ID										
T5.6	T5-006	Submit a delayed single-sided off book Block Trade	Equity Market	N	Y	Self	5.6.2 Trade Report ID, Trade ID										
T5.7	T5-007	Submit a single-sided off book trade with commission type, commission fee fields	All	N	Y	Self	5.7.2 Trade Report ID, Trade ID										
T6		Post Trade – Dual Sided Trade Reports		Y	Y												
T6.1	T6-001	Submit a dual sided Trade Report for immediate publication.	All	Y	Y	Self	6.1.2 Trade Report ID, Trade ID										
T6.2	T6-002	Same day cancel of a dual sided Off Book Trade Report	All	Y	Y	Self	6.2.2 Trade Report ID, Trade ID										
T6.3	T6-003	Next day cancel of a dual sided published Off Book Trade Report. (LC)	Equity Market	Y	Y	Self	6.3.2 Trade Report ID, Trade ID										
T6.4	T6-004	Next day cancel of a dual sided non-published Off Book Trade Report. (NC)	Equity Market	Y	Y	Self	6.4.2 Trade Report ID, Trade ID										
T6.5	T6-005	Submit a delayed dual-sided off book Block Trade	Equity Market	N	Y	Self	6.5.2 Trade Report ID, Trade ID										
T6.6	T6-006	Submit a dual-sided off book trade with commission type, commission fee fields	All	N	Y	Self	6.6.2 Trade Report ID, Trade ID										
T7		Post Trade – Post Contra Trade (PC)		Y	Y												
T7.1	T7-001	Correction of a previous day ON Book Trade (PC)	Equity Market	Y	Y	Self	7.1.2 Trade Report ID, Trade ID, OrigTradeID, OrigTradeDate										
T7.2	T7-002	Cancellation of a same day On Book Trade	All	Y	Y	Self	7.1.2 Trade Report ID, Trade ID, OrigTradeID, OrigTradeDate										
T8		Post Trade – Own Trades Book Download (OTBD)		Y	Y												
T8.1	T8-001	Submit Own Trades Book Download Request.	All	Y	Y	Self	8.1.2 Interface User ID (CompID) Trade ID, Trade Request ID										
T9		Drop Copy Gateway		Y	Y												
T9.1	T9-001	Establish a connection, Logon and change your password.	All	Y	Y	Self	9.1.3 Interface User ID (CompID)										
T9.2	T9-002	Submit Own Order Book Download Request.	All	Y	Y	Self	9.2.2 Interface User ID (CompID) Mass Status Req ID, Trader Group, Trader ID										
T10		On Behalf of Actions		Y	N												
T10.1	T10-001	Establish a connection and Logon. CTA to action OBO Order Cancel activity. Client confirms receipt of unsolicited messages.	All	Y	N	CTA	10.1.4 Interface User ID (CompID) Order ID, Client Order ID	IAIN01	SAST 2026-09-10 11:07:26	ExecID = "E0SiPA6hSwmU"	ClOrdID = "E2609100000000LFLTSN"	OrderID = "O0SiPEwk25mf"	Order Cancel message recieved successfully.			
T10.2	T10-002	CTA to action OBO Trade Cancel activity. Client confirms receipt of unsolicited messages.	All	Y	N	CTA	10.2.3 Execution ID of Trade Cancel and Order reinstatement, Trade ID, Order ID, Client Order ID	IAIN01	SAST 2026-09-10 11:12:23	ExecID for Trade cancel message = "E0SiPA6hSxMF" , ExecID for order cancelled message = "E0SiPA6hSxfE"	ClOrdID = "E2609100000000LFLXEC"	OrderID = "O0SiPEwk25yQ"	Trade Cancel message recieved successfully.			
T10.3	T10-003	CTA to action OBO single sided Trade activity. Client confirms receipt of unsolicited messages.	All	Y	Y	CTA	10.3.2 Interface User ID (CompID) Trade ID, Client Order ID										
T10.4	T10-004	CTA to publish a unique News message. Client confirms receipt of unsolicited messages.	All	Y	Y	CTA	10.4.2 Interface User ID (CompID) Text received, Instrument ID										
T11		Trading – Cross Order (FIX or Native,Drop Copy, Post Trade)		Y	Y												
T11.1	T11-001	Successfully submit a Cross Order on the FIX or Native gateway	Equity Market	Y	Y	Self	11.1.1 Security ID,Trader mneumonic,ExecutionID										
T11.2	T11-002	Ensure the Cross Orders were the only orders submitted for this instrument. Log onto the Drop Copy gateway and confirm there are no open orders for the instrument.	Equity Market	Y	Y	Self	11.2. No open orders fro specified instrument										

T11.3	T11-003	From the previous test case of successfully submitting a Cross Order,confirm the order is successful on the Post Trade Gateway	Equity Market	Y	Y	Self	11.3 Security ID,Trade ID										
T12		Trading – Pegged Order (FIX or Native,Drop Copy, Post Trade)		Y	Y												
T12.1	T12-001	Successfully submit a Pegged Order on the FIX or Native Gateway	Equity Market	Y	Y	Self	12.1. CompID,Trader mnemonic,OrderID,ClientOrderID,InstrumentID										
T12.2	T12-002	From the previous test case,log onto the Drop Copy Gateway and confirm open orders exist specific to the Pegged Order submitted	Equity Market	Y	Y	Self	12.2. InstrumentID,SecurityID,ClientOrderID										
T12.3	T12-003	Submit an order that successfully executes against the Pegged Order submitted in the previous steps and confirm the trade is successful on the Post Trade Gateway	Equity Market	Y	Y	Self	12.3. SecurityID,ClientOrderID,TradeID										
T13		Trading – Pegged Limit Order (FIX or Native, Drop Copy, Post Trade)		Y	Y												
T13.1	T13-001	Successfully submit a Pegged Limit Order on the FIX or Native gateway	Equity Market	Y	Y	Self	13.1. SecurityID,Order ID,Client Order ID										
T13.2	T13-002	From the previous test case, log onto the Drop Copy gateway and confirm open orders exist specific to the Pegged Limit Order submitted	Equity Market	Y	Y	Self	13.2. InstrumentID,SecurityID										
T13.3	T13-003	Submit an order that successfully executes against the Pegged Limit Order submitted in the previous steps and confirm the trade is successful on the Post Trade Gateway	Equity Market	Y	Y	Self	13.3. ClientOrderID,SecurityID										
T14		Trading – EOD Volume Auction Uncross (FIX or Native, Drop Copy, Post Trade)		Y	Y												
T14.1	T14-001	Successfully submit a Good for EOD Volume Auction uncross (GDX) Order on the FIX or Native gateway	Equity Market	Y	Y	Self	14.1. ClientorderID,InstrumentID,ExecutionID										
T14.2	T14-002	From the previous test case,log onto the Drop Copy gateway and confirm open orders exist specific to the EOD Volume Auction call order submitted	Equity Market	Y	Y	Self	14.2. Trading sessionID,ExecInst										
T14.3	T14-003	Confirm that the successfully executed EOD Volume Auction uncross order submitted in the previous step is successful on the Post Trade Gateway	Equity Market	Y	Y	Self	14.3. Client OrderID,InstrumentID,ExecutionID										
T15		Trading – Quotes		Y	Y												
T15.1	T15-001	Successfully submit a dual-sided quote	Derivative Markets	Y	Y	Self	15.1.2 Interface User ID (CompID) ClientOrderID, InstrumentID, ExecutionID										
T16		Trading – User-Created Instruments		Y	Y												
T16.1	T16-001	Client submits a request to create an instrument under the "Any day futures" strategy	Derivative Markets	Y	Y	Self	16.1.2 Interface User ID (CompID), Security Request ID, Security Type, Security ID										
T16.2	T16-002	Clients submits a request to create an instrument under the "Call Option" strategy type	Derivative Markets	Y	Y	Self	16.2.2 Interface User ID (CompID), Security Request ID, Security Type, Security ID										
T16.3	T16-003	Clients submits a request to create an instrument under the "Put Option" strategy type	Derivative Markets	Y	Y	Self	16.3.2 Interface User ID (CompID) Security Request ID, Security Type, Security ID										
T16.4	T16-004	Client submits a request to create a "tailor-made Instrument" under the "Forward Forwards" strategy type	Derivative Markets	Y	Y	Self											
T16.5	T16-005	Client submits a request to create an instrument under the "Naked Options" strategy type	Derivative Markets	Y	Y	Self	16.4.2 Interface User ID (CompID), Security Request ID, Security Type, Security ID										
T16.6	T16-006	Client submits a request to create an instrument using Instrument ID	Derivative Markets	Y	Y	Self	16.6. CompID,Security Request ID, Security Type,Security ID, Reference Instrument, Reference Instrument Identifier										
T17		Trading – On-Book Strategies		Y	Y												
T17.1	T17-001	Client executes an on-book trade against their "User Created Instrument" under the Any day futures" strategy type	Derivative Markets	Y	Y	Self	17.1.2 Interface User ID (CompID), Client Order ID, Security ID, Security Type, Execution ID										
T17.2	T17-002	Client executes an on-book trade against their "User Created Instrument" under the "Call Delta Options" strategy type	Derivative Markets	Y	Y	Self	17.2.2 Interface User ID (CompID), Client Order ID, Security ID, Security Type, Execution ID										
T17.3	T17-003	Client executes an on-book trade against their "User Created Instrument" under the "Put Delta Options" strategy type	Derivative Markets	Y	Y	Self	17.3.2 Interface User ID (CompID), Client Order ID, Security ID, Security Type, Execution ID										

T17.4	T17-004	Client executes an on-book trade against their "User Created Instrument" under the "Naked Options" strategy type	Derivative Markets	Y	Y	Self	17.4.2 Interface User ID (CompID), Client Order ID, Security ID, Security Type, Execution ID										
T18		Post Trade – Off-Book Strategies		Y	Y												
T18.1	T18-001	Client performs a single/dual sided OFF BOOK trade under the Delta Option strategy type	Derivative Markets	Y	Y	Self	18.1.1 Interface User ID (CompID), Trade Report ID, Trade ID										
T18.2	T18-002	Client performs a single/dual sided OFF BOOK trade under the Inverse Calendar Spread strategy type	Derivative Markets	Y	Y	Self	18.2.2 Interface User ID (CompID), Trade Report ID, Trade ID										
T18.3	T18-003	Perform a single sided Off Book strategy trade type	Derivative Markets	Y	Y	Self	18.3.2 Interface User ID (CompID), Trade Report ID, Trade ID										
T18.4	T18-004	Client performs a single/dual sided Off Book trade against their "User Created Instrument", created under the FwdFwd strategy type	Derivative Markets	Y	Y	Self	18.4.2 Interface User ID (CompID), Trade Report ID, Trade ID										
T18.5	T18-005	Client performs an OFF BOOK Roll Trade	Derivative Markets	Y	Y	Self	18.5.2 Interface User ID (CompID), Trade Report ID, Trade ID										
T19		Trading – Inverse Calendar Spreads		Y	Y												
T19.1	T19-001	Execute a trade on an inverse calendar spread instrument	Derivative Markets	Y	Y	Self	19.1.2. Interface User ID (CompID), Client Order ID, Security ID, Security Type 19.2.4 Execution ID										
T20		Trading – Iceberg Orders (FIX or Native)		Y	Y												
T20.1	T20-001	Successfully submit an Iceberg Order on the FIX or Native Trading Gateways	Equity Market	Y	Y	Self	20.1 Client Order ID, Execution Type, Order Status, DisplayQty, OrderQty, CompID										
T20.2	T20-002	Trade against an Iceberg Order	Equity Market	Y	Y	Self	20.2 CompID, Order ID, Client Order ID, Public Order ID, Execution Type, Order Status										
T20.3	T20-003	The new field will be populated only for Iceberg executions for on book trades on Equity instruments	Equity Market	Y	Y	Self	20.3 Execution Report, Trade Capture Report										
T21		Trading – Liquidity Indicator (Native or FIX)		Y	N												
T21.1	T21-001	Successfully submit an order, as a result of a client providing or taking the liquidity on the FIX or Native Trading Gateways	Equity Market	Y	N	Self	21.1 Client Order ID, Execution Type, Order Status, CompID, Liquidity Indicator	IAIN01	SAST 2026-09-09 13:22:19	SAST 2026-09-09 13:22:19	SAST 2026-09-09 13:22:19	LiquidityIndicator = 2	Took Liquidity.			
T22		Trading – Working Indicator (Native)		Y	N												
T22.1	T22-001	Successfully submit a new order to identify if the order is currently being worked on Native Gateway	Equity Market	Y	N	Self	22.1 Client Order ID, Execution Type, Order Status, CompID, Working Indicator	IAIN01	SAST 2026-09-17 09:05:33	ClOrdID = "F26091700000000LFLWDX" , ExecType = '0' ,	ExecID = "E0SnTsUC7TJB"	WorkingIndicator = 1	Getting WorkingIndicator=1 as order is being worked on instrumentId = 201.
