Volume 202 - Conformance Test Report v3.08 LCNN13 1st try

Trd Conf.

		Test Items Required						Complete response as ApplReqID=XXX. Rows can be repeated where multiple responses required								
TRD	Test Case ID	Trading Conformance	Market	Mandatory	Conformance Exemption Agreed with JSE	Self / CTA Test	Requirements	Client Interface User ID (CompID)	Test Time	Client Response to Required Field1	Client Response to Required Field2	Client Response to Required Field3	Client Comment	JSE Comment	Test Result Pass / Fail	Other
T1		Trading - Logon		Y	N											
T1.1	T1-001	Establish a connection, Logon and change your password.	All	Y	N	Self	1.1.3 Interface User ID (CompID)						N/A - not supported			
T1.2	T1-002	Establish a connection, Logon and change your password.	All	N	N	Self	1.2.3 Interface User ID (CompID)									
T1.3	T1-003	Establish a connection, Logon and change your password - Protocol version	All	N	N	Self	1.3.3 Interface User ID (CompID), Protocol Version									
T2		Trading – Auction Order Management		Y	N											
T2.1	T2-001	Validate Market Orders during an Auction period.	All	Y	N	Self	2.1.3 Order ID, Client Order ID, Execution ID	LCNN13	20260901-17:42:54	ClientOrderID:599081898	OrderID:O0SbsbbOKh7Q	ExecutionID:E0SbsWlLmUUW				
T2.2	T2-002	Validate Limit Orders during an Auction period.	All	Y	N	Self	2.1.3 Order ID, Client Order ID, Execution ID	LCNN13	20260901-17:45:32	ClientOrderID:599081899	OrderID:O0SbsbbOKhFo	ExecutionID:E0SbsWlLmV1C				
T3		Trading – Continuous Trading Order Management		Y	N											
T3.1	T3-001	Validate Aggressive Market Orders during the Continuous Trading period. This is an un-priced order	All	Y	N	Self	3.1.2 Order ID, Client Order ID, Execution ID	LCNN13	20260902-11:18:19	ClientOrderID:371566166	OrderID:O0ScbilP0FQd	ExecutionID:E0ScbdvMRIGn				
T3.2	T3-002	Validate Aggressive Limit Orders during the Continuous Trading period.	All	Y	N	Self	3.2.2 Order ID, Client Order ID, Execution ID	LCNN13	20260902-10:19:43	ClientOrderID:371566164	OrderID:O0ScbilP0Cq0	ExecutionID:E0ScbdvMR69J				
T3.3	T3-003	Validate Passive Limit Orders during the Continuous Trading period.	All	Y	N	Self	3.3.3 Order ID, Client Order ID, Execution ID	LCNN13	20260902-10:19:43	ClientOrderID:371566163	OrderID:O0ScbilP0Cpk	ExecutionID:E0ScbdvMR68L				
T3.4	T3-004	Validate Stop Orders during the Continuous Trading period.	All	Y	N	Self	3.4.3 Order ID, Client Order ID, Execution ID						N/A - ordType not allowed			
T3.5	T3-005	Validate Stop Limit Orders during the Continuous Trading period.	All	Y	N	Self	3.5.3 Order ID, Client Order ID, Execution ID						N/A - ordType not allowed			
T3.6	T3-006	Validate Order modification during the Continuous Trading period.	All	Y	N	Self	3.6.3 Order ID, Client Order ID, Execution ID	LCNN13	20260902-11:26:35	ClientOrderID:371566170	OrderID:O0ScbilP0FjW	ExecutionID:E0ScbdvMRIwG				
T3.7	T3-007	Validate Order cancellation during the Continuous Trading period.	All	Y	N	Self	3.7.3 Order ID, Client Order ID, Execution ID	LCNN13	20260902-11:27:48	ClientOrderID:371566171	OrderID:O0ScbilP0FjW	ExecutionID:E0ScbdvMRJ9D				
T3.8	T3-008	Validate Order Mass Cancel during the Continuous Trading period.	All	Y	N	Self	3.8.3 Order ID, Client Order ID, Execution ID						N/A - messageType not supported			
T3.09	T3-009	Validate Cancel on disconnect.	All	Y	N	Self	3.9.4 Order ID, Client Order ID, Execution ID	LCNN13	20260902-12:29:12	ClientOrderID:447329963	OrderID:O0ScbilP0I1E	ExecutionID:E0ScbdvMRTZp				
T3.10	T3-010	Validate Exclude Hidden Limit Orders during the Continuous Trading period.	Equity Market	Y	N	Self	3.10.2 Order ID, Client Order ID, Execution ID									
T3.11	T3-011	Validate Market to Limit Order during the Continuous Trading period.	Derivative Markets	Y	N	Self	3.10.2 Order ID, Client Order ID, Execution ID									
T3.12	T3-012	Validate Market if Touched Order during the Continuous Trading period.	Derivative Markets	Y	N	Self	3.10.2 Order ID, Client Order ID, Execution ID									
T3.13	T3-013	Validate Iceberg Order during the Continuous Trading period.	Equity Market	Y	N	Self	3.13 Order ID, Client Order ID, Execution ID, Public Order ID, DisplayQty									
T3.13	T3-013	Validate Aggressive Limit Orders that are Prevented from Self-Matching - Native Trading Gateway	Equity Market	N	N	Self	3.13 Order ID, Client Order ID, Self Trade Prevention Key, ExecType									
T3.14	T3-014	Validate Aggressive Limit Orders that are Prevented from Self-Matching - FIX Trading Gateway	Equity Market	N	N	Self	3.14 Order ID, Client Order ID, NoTrdKey, ExecType									
T3.15	T3-015	Validate proper handling of order cancel/replace requests without the NoTradeKey field (FIX Trading Gateway)	Equity Market	N	N	Self	3.15 Order ID, Client Order ID, ExecType									
T3.16	T3-016	Validate proper handling of order cancel/replace requests without the Self Trade Prevention Key field (Native Trading Gateway)	Equity Market	N	N	Self	3.16 Order ID, Client Order ID, ExecType									
T4		Trading - Native Trading Recovery		Y	N											
T4.1	T4-001	Prove Native Trading recovery of missed messages.	All	Y	N	Self	4.1.4 Order IDs, Client Order Ids	LCNN13	20260902-11:46:53	ClientOrderID:330566938 ClientOrderID:330566939 ClientOrderID:330566940 ClientOrderID:371566163 ClientOrderID:371566164	OrderID:O0ScbilP0A8o OrderID:O0ScbilP0A9B OrderID:O0ScbilP0A9Q OrderID:O0ScbilP0Cpk OrderID:O0ScbilP0Cq0	ExecutionID:E0ScbdvMQtcz ExecutionID:E0ScbdvMQtf5 ExecutionID:E0ScbdvMQtgJ ExecutionID:E0ScbdvMR68L ExecutionID:E0ScbdvMR69J				
T5		Post Trade – Single Sided Trade Reports		Y	N											
T5.1	T5-001	Establish a connection, Logon and change your password.	All	Y	N	Self	5.1.1 Interface User ID (CompID)						N/A			
T5.2	T5-002	Submit a single sided Trade Report for immediate publication.	All	Y	N	Self	5.2.2 Trade Report ID, Trade ID						N/A			
T5.3	T5-003	Same day cancel of a single sided Off Book Trade Report.	All	Y	N	Self	5.3.2 Trade Report ID, Trade ID						N/A			
T5.4	T5-004	Next day cancel of a single sided published Off Book Trade Report. (LC)	Equity Market	Y	N	Self	5.4.2 Trade Report ID, Trade ID						N/A			
T5.5	T5-005	Next day cancel of a single sided non-published Off Book Trade Report. (NC)	Equity Market	Y	N	Self	5.5.2 Trade Report ID, Trade ID						N/A			

T5.6	T5-006	Submit a delayed single-sided off book Block Trade	Equity Market	N	N	Self	5.6.2 Trade Report ID, Trade ID							N/A			
T5.7	T5-007	Submit a single-sided off book trade with commission type, commission fee fields	All	N	N	Self	5.7.2 Trade Report ID, Trade ID							N/A			
T6		Post Trade – Dual Sided Trade Reports		Y	N												
T6.1	T6-001	Submit a dual sided Trade Report for immediate publication.	All	Y	N	Self	6.1.2 Trade Report ID, Trade ID							N/A			
T6.2	T6-002	Same day cancel of a dual sided Off Book Trade Report	All	Y	N	Self	6.2.2 Trade Report ID, Trade ID							N/A			
T6.3	T6-003	Next day cancel of a dual sided published Off Book Trade Report. (LC)	Equity Market	Y	N	Self	6.3.2 Trade Report ID, Trade ID							N/A			
T6.4	T6-004	Next day cancel of a dual sided non-published Off Book Trade Report. (NC)	Equity Market	Y	N	Self	6.4.2 Trade Report ID, Trade ID							N/A			
T6.5	T6-005	Submit a delayed dual-sided off book Block Trade	Equity Market	N	N	Self	6.5.2 Trade Report ID, Trade ID							N/A			
T6.6	T6-006	Submit a dual-sided off book trade with commission type, commission fee fields	All	N	N	Self	6.6.2 Trade Report ID, Trade ID							N/A			
T7		Post Trade – Post Contra Trade (PC)		Y	N												
T7.1	T7-001	Correction of a previous day ON Book Trade (PC)	Equity Market	Y	N	Self	7.1.2 Trade Report ID, Trade ID, OrigTradeID, OrigTradeDate							N/A			
T7.2	T7-002	Cancellation of a same day On Book Trade	All	Y	N	Self	7.1.2 Trade Report ID, Trade ID, OrigTradeID, OrigTradeDate							N/A			
T8		Post Trade – Own Trades Book Download (OTBD)		Y	N												
T8.1	T8-001	Submit Own Trades Book Download Request.	All	Y	N	Self	8.1.2 Interface User ID (CompID) Trade ID, Trade Request ID							N/A			
T9		Drop Copy Gateway		Y	N												
T9.1	T9-001	Establish a connection, Logon and change your password.	All	Y	N	Self	9.1.3 Interface User ID (CompID)							N/A - order entry only			
T9.2	T9-002	Submit Own Order Book Download Request.	All	Y	N	Self	9.2.2 Interface User ID (CompID) Mass Status Req ID, Trader Group, Trader ID							N/A - order entry only			
T10		On Behalf of Actions		Y	N												
T10.1	T10-001	Establish a connection and Logon. CTA to action OBO Order Cancel activity. Client confirms receipt of unsolicited messages.	All	Y	N	CTA	10.1.4 Interface User ID (CompID) Order ID, Client Order ID							N/A			
T10.2	T10-002	CTA to action OBO Trade Cancel activity. Client confirms receipt of unsolicited messages.	All	Y	N	CTA	10.2.3 Execution ID of Trade Cancel and Order reinstatement, Trade ID, Order ID, Client Order ID							N/A			
T10.3	T10-003	CTA to action OBO single sided Trade activity. Client confirms receipt of unsolicited messages.	All	Y	N	CTA	10.3.2 Interface User ID (CompID) Trade ID, Client Order ID							N/A			
T10.4	T10-004	CTA to publish a unique News message. Client confirms receipt of unsolicited messages.	All	Y	N	CTA	10.4.2 Interface User ID (CompID) Text received, Instrument ID							N/A			
T11		Trading – Cross Order (FIX or Native,Drop Copy, Post Trade)		Y	N												
T11.1	T11-001	Successfully submit a Cross Order on the FIX or Native gateway	Equity Market	Y	N	Self	11.1.1 Security ID,Trader mneumonic,ExecutionID							N/A			
T11.2	T11-002	Ensure the Cross Orders were the only orders submitted for this instrument. Log onto the Drop Copy gateway and confirm there are no open orders for the instrument.	Equity Market	Y	N	Self	11.2. No open orders fro specified instrument							N/A			
T11.3	T11-003	From the previous test case of successfully submitting a Cross Order,confirm the order is successful on the Post Trade Gateway	Equity Market	Y	N	Self	11.3 Security ID,Trade ID							N/A			
T12		Trading – Pegged Order (FIX or Native,Drop Copy, Post Trade)		Y	N												
T12.1	T12-001	Successfully submit a Pegged Order on the FIX or Native Gateway	Equity Market	Y	N	Self	12.1. CompID,Trader mnemonic,OrderID,ClientOrderID,InstrumentID										
T12.2	T12-002	From the previous test case,log onto the Drop Copy Gateway and confirm open orders exist specific to the Pegged Order submitted	Equity Market	Y	N	Self	12.2. InstrumentID,SecurityID,ClientOrderID										
T12.3	T12-003	Submit an order that successfully executes against the Pegged Order submitted in the previous steps and confirm the trade is successful on the Post Trade Gateway	Equity Market	Y	N	Self	12.3. SecurityID,ClientOrderID,TradeID										
T13		Trading – Pegged Limit Order (FIX or Native, Drop Copy, Post Trade)		Y	N												
T13.1	T13-001	Successfully submit a Pegged Limit Order on the FIX or Native gateway	Equity Market	Y	N	Self	13.1. SecurityID,Order ID,Client Order ID										
T13.2	T13-002	From the previous test case, log onto the Drop Copy gateway and confirm open orders exist specific to the Pegged Limit Order submitted	Equity Market	Y	N	Self	13.2. InstrumentID,SecurityID										
T13.3	T13-003	Submit an order that successfully executes against the Pegged Limit Order submitted in the previous steps and confirm the trade is successful on the Post Trade Gateway	Equity Market	Y	N	Self	13.3. ClientOrderID,SecurityID										
T14		Trading – EOD Volume Auction Uncross (FIX or Native, Drop Copy, Post Trade)		Y	N												
T14.1	T14-001	Successfully submit a Good for EOD Volume Auction uncross (GDX) Order on	Equity Market	Y	N	Self	14.1. ClientorderID,InstrumentID,ExecutionID							N/A - ordType not allowed			

		the FIX or Native gateway															
T14.2	T14-002	From the previous test case,log onto the Drop Copy gateway and confirm open orders exist specific to the EOD Volume Auction call order submitted	Equity Market	Y	N	Self	14.2. Trading sessionID,ExecInst						N/A - ordType not allowed			
T14.3	T14-003	Confirm that the successfully executed EOD Volume Auction uncross order submitted in the previous step is successful on the Post Trade Gateway	Equity Market	Y	N	Self	14.3. Client OrderID,InstrumentID,ExecutionID						N/A - ordType not allowed			
T15		Trading – Quotes		Y	N												
T15.1	T15-001	Successfully submit a dual-sided quote	Derivative Markets	Y	N	Self	15.1.2 Interface User ID (CompID) ClientOrderID, InstrumentID, ExecutionID										
T16		Trading – User-Created Instruments		Y	N												
T16.1	T16-001	Client submits a request to create an instrument under the "Any day futures" strategy	Derivative Markets	Y	N	Self	16.1.2 Interface User ID (CompID), Security Request ID, Security Type, Security ID										
T16.2	T16-002	Clients submits a request to create an instrument under the "Call Option" strategy type	Derivative Markets	Y	N	Self	16.2.2 Interface User ID (CompID), Security Request ID, Security Type, Security ID										
T16.3	T16-003	Clients submits a request to create an instrument under the "Put Option" strategy type	Derivative Markets	Y	N	Self	16.3.2 Interface User ID (CompID) Security Request ID, Security Type, Security ID										
T16.4	T16-004	Client submits a request to create a "tailor-made Instrument" under the "Forward Forwards" strategy type	Derivative Markets	Y	N	Self											
T16.5	T16-005	Client submits a request to create an instrument under the "Naked Options" strategy type	Derivative Markets	Y	N	Self	16.4.2 Interface User ID (CompID), Security Request ID, Security Type, Security ID										
T16.6	T16-006	Client submits a request to create an instrument using Instrument ID	Derivative Markets	Y	N	Self	16.6. CompID,Security Request ID, Security Type,Security ID, Reference Instrument, Reference Instrument Identifier										
T17		Trading – On-Book Strategies		Y	N												
T17.1	T17-001	Client executes an on-book trade against their "User Created Instrument" under the Any day futures" strategy type	Derivative Markets	Y	N	Self	17.1.2 Interface User ID (CompID), Client Order ID, Security ID, Security Type, Execution ID										
T17.2	T17-002	Client executes an on-book trade against their "User Created Instrument" under the "Call Delta Options" strategy type	Derivative Markets	Y	N	Self	17.2.2 Interface User ID (CompID), Client Order ID, Security ID, Security Type, Execution ID										
T17.3	T17-003	Client executes an on-book trade against their "User Created Instrument" under the "Put Delta Options" strategy type	Derivative Markets	Y	N	Self	17.3.2 Interface User ID (CompID), Client Order ID, Security ID, Security Type, Execution ID										
T17.4	T17-004	Client executes an on-book trade against their "User Created Instrument" under the "Naked Options" strategy type	Derivative Markets	Y	N	Self	17.4.2 Interface User ID (CompID), Client Order ID, Security ID, Security Type, Execution ID										
T18		Post Trade – Off-Book Strategies		Y	N												
T18.1	T18-001	Client performs a single/dual sided OFF BOOK trade under the Delta Option strategy type	Derivative Markets	Y	N	Self	18.1.1 Interface User ID (CompID), Trade Report ID, Trade ID										
T18.2	T18-002	Client performs a single/dual sided OFF BOOK trade under the Inverse Calendar Spread strategy type	Derivative Markets	Y	N	Self	18.2.2 Interface User ID (CompID), Trade Report ID, Trade ID										
T18.3	T18-003	Perform a single sided Off Book strategy trade type	Derivative Markets	Y	N	Self	18.3.2 Interface User ID (CompID), Trade Report ID, Trade ID										
T18.4	T18-004	Client performs a single/dual sided Off Book trade against their "User Created Instrument", created under the FwdFwd strategy type	Derivative Markets	Y	N	Self	18.4.2 Interface User ID (CompID), Trade Report ID, Trade ID										
T18.5	T18-005	Client performs an OFF BOOK Roll Trade	Derivative Markets	Y	N	Self	18.5.2 Interface User ID (CompID), Trade Report ID, Trade ID										
T19		Trading – Inverse Calendar Spreads		Y	N												
T19.1	T19-001	Execute a trade on an inverse calendar spread instrument	Derivative Markets	Y	N	Self	19.1.2. Interface User ID (CompID), Client Order ID, Security ID, Security Type 19.2.4 Execution ID										
T20		Trading – Iceberg Orders (FIX or Native)		Y	N												
T20.1	T20-001	Successfully submit an Iceberg Order on the FIX or Native Trading Gateways	Equity Market	Y	N	Self	20.1 Client Order ID, Execution Type, Order Status, DisplayQty, OrderQty, CompID										
T20.2	T20-002	Trade against an Iceberg Order	Equity Market	Y	N	Self	20.2 CompID, Order ID, Client Order ID, Public Order ID, Execution Type, Order Status										
T20.3	T20-003	The new field will be populated only for Iceberg executions for on book trades on Equity instruments	Equity Market	Y	N	Self	20.3 Execution Report, Trade Capture Report										
T21		Trading – Liquidity Indicator (Native or FIX)		Y	N												
T21.1	T21-001	Successfully submit an order, as a result of a client providing or taking the liquidity on the FIX or Native Trading Gateways	Equity Market	Y	N	Self	21.1 Client Order ID, Execution Type, Order Status, CompID, Liquidity Indicator	LCNN12	20260903-13:46:09l	ClientOrderID:459480253	OrderID:O0SdKWZFNMFi	ExecutionID:E0SdKRjCoZx4				
T22		Trading – Working Indicator (Native)		Y	N												
T22.1	T22-001	Successfully submit a new order to identify if the order is currently being worked on Native Gateway	Equity Market	Y	N	Self	22.1 Client Order ID, Execution Type, Order Status, CompID, Working Indicator										
T23.1		Trading – Real Time Circuit Breaker Alerts to Brokers (Drop Copy)		Y	N												
T23.1	T23-001	Trigger alert message sent to Drop Copy user when trader breaches a circuit breaker	Equity Market	N	N	Self	23.1 Text,SecurityID,NoRoutingIDs,RoutingType,RoutingID										
T24		Trading - FX Auction Automation (Native)		N	N	Self											
T24.1	T24-001	Submit an order to the FX Auction order book	Currency Market	N	N	Self	24.1.3 Execution Report										

T24.2	T24-002	Ability to amend an existing order in the FX Auction	Currency Market	N	N	Self	24.2.4 Execution Report										
T24.3	T24-003	Ability to cancel an order in the FX Auction	Currency Market	N	N	Self	24.3.3 Execution Report										
T24.4	T24-004	Ability to execute an order in the FX Auction	Currency Market	N	N	Supported	24.4.4 Execution Report, Trade Capture Report, Trade and Extended Stats Message										
T25		Trading - Closing Price Cross (FIX or Native)		N	N	Self											
T25.1	T25-001	Validate Aggressive Limit Orders that are Prevented from Self-Matching - Native Trading Gateway	Equity Market	N	N	Self	25.1.1 Order ID, Client Order ID, Self Trade Prevention Key										
T25.2	T25-002	Validate Aggressive Limit Orders that are Prevented from Self-Matching - FIX Trading Gateway	Equity Market	N	N	Self	25.2.1 Order ID, Client Order ID, NoTrdKey
